**OFFERING YOU THE FUTURE
OF PAYMENT SOLUTION**

A virtual credit card is a card that is an email, one time use card. Anyone can pay instead of calling and reading a card number over the phone. Digital virtual cards are safer and faster, environmentally more secure and pays are rebated back to the vendor.

AP automation that our CSI Does:

- Automize and digitize all your payments.
- Leverage our processing platform for card issuing and digital payments.
- Embed our payments solution into your ERP.
- Strengthen your brand through a white label solution.

You deserve a payments automation solution that provides a great return on investment and we make that happen.
