### What we do?

- Analyze:** Aspire Credit Card Audit Analysis audits your merchant account statement against thousands of interchange and assessment fees to uncover overbilling and hidden charges. Your statements data is analyzed and benchmarked against optimal pricing available.
- Optimize:** Enrolling in the Aspire Credit Card Audit program will optimize your rates with your current payment processor, ensuring your merchant account is configured correctly to take advantage of the lowest payment processing rates. The process is fast and there's no changing in payment processors.
- Protect:** After your payment processing rates are optimized, they need to be protected against future rate increases. When your payment processor attempts to increase your rates, Aspire Credit Card Audit will protect you. Each month, you'll receive a report showing realized savings from the our program.
