

The DecisionDOC MX software suite brings two major critical points to the table for the medical practice. All of the DecisionDOC AI core programs are included in the MX version of the platform. MX takes the point of intake into digital marketing, social marketing and sales organization space. MX adds new patient acquisition and objective data diagnostics to the DecisionDOC suite of services.

The Two additional technologies:

MX Marketing Suite and Services

TM-Flow ANS medical device

This Suite has all of the features necessary to turn on a patient acquisition model, centered around our intake and medical necessity, that you can get nowhere else. We help practices go from 20 to 30 patients like other agencies offer to 200+ a month.

"Think ANS First"

This will become your practices client standard test for every patient.

Cutting edge medicine giving doctors Significant insight into patient health.

- The **TM-Flow ANS testing medical device** is a highly comprehensive, user-friendly, non-invasive tool that focuses on early detection of over 20 disease states. This is done through the **Autonomic Nervous System & Vascular System** by measuring 8 health risk areas within the body.
- The **TM-Flow ANS testing medical device** effectively measures the state of a Patient's health by screening for hidden causes of disease and other chronic diseases such as diabetes and other cardiometabolic Risk.

“Think ANS First”

This is good medicine for both patient and doctor, aiding in the early detection of over 20 disease complications while also validating critical next-step treatment and testing! Our medical device programs have medical markers for all of the following:

- Heart Attack
- Heart Rate Variability Issues
- Cardiac Output to Body Surface Area
- Abnormal LDL Cholesterol
- High levels of Insulin Resistance
- Diabetes with Complications
- Physical and Mental Stress, Anxiety and Fatigue

Endothelial Dysfunction

4

Sudomotor Dysfunction

5

Cardiac Autonomic Neuropathy

6

Cardio-Metabolic Risk

7

Small Fibre Neuropathy

8

Cardio - vascular Disease

MARKETING AND ANALYSIS SUITE

The Marketing Suite:

- Specially created funnels and landing pages built to interest and educate new patients the TM-Flow Health Risk Exam. This is tied directly into an appointment booking system we can pin to your EMR.
- The ability to create multiple campaigns for tracking funnel success across all marketing platforms.
- We give you all the assets needed for your digital marketing efforts such as banners, ad copy, social templates, email templates and more.
- You will have account access for your inhouse team as well as any other agency you may be working with. Our platform has all the expected sub-id and pixel tracking agencies expect to see in a professional system.

TM-Flow Analysis Suite

- In addition to all of the data given from the subjective intake process, we add the objective findings of the 65 ICD + modifiers of the TM-Flow.
- We have a specialized intake process that qualifies medical necessity from our marketing system. This allows encounters for the analysis to be scheduled ahead of time. No other marketing system does this.
- For the TMn-Flow we have an entire interpretation suite that reads this objective biodata and prepares it into the American Codex Values. Including the full preparation of encounter forms to be signed and sent in for billing the device.
